

## NEW KEYWORD

**Photo-Reactive:** When this model is the target of a Shoot action which benefits from the Clear Shot modifier, the opponent only gains +1 die for the Clear Shot. The Optics keyword provide no benefits to attacks where this model is the target. If this model is hit by a weapon with the ESD keyword or is in a cube affected by a threat sensor, the above benefits are lost until the end of the current turn.

## NEW SPECIAL ORDER

**Gamma Company Augmentations:** When you spend a command die to allow a Spartan-III (except Legends) to make a free Assault action, you may also spend a special order die at the same time. If you do, the active model gains Smash (3) during that activation. When you spend a command die to allow a Spartan-III (except Legends) to make a free Shoot action, you may spend a special order die at the same time. If you do, the active model gains your choice of Stable or Firing Platform(2) during that activation.
